A Quarterly Newsletter from Paramount Drywall and Paramount Stucco

■ What's in the works at Paramount?

Florida International University Mixed Used Building, Miami, Florida for Arellano OHL

Things are busy again and we take pride for the jobs that we have been invited to be a part of this year. From beautiful custom homes all over Florida to new residential projects, club houses, assisted living facilities, high school projects, university buildings and healthcare projects.

In South Florida we completed the interior metal framing, insulation, drywall, exterior metal framing and stucco scope of work at the Florida International University Mixed Use Building in Miami, Florida for Arellano OHL. The FIU Mixed Use Building is a six-story, 110,000.0 sf mixed use university building that includes restaurants, offices, classrooms, recording studios and six-story atrium. We thank Arellano OHL for giving us the opportunity to be a part of the construction of this beautiful project.
